‘Safety In Neighbours’: burglary 2020 campaign

Social media pack, July 2020
Introduction

Now that we’re all starting to ease out of lockdown, we need to make sure that as well as keeping ourselves safe, we’re keeping our homes and neighbourhoods safe.

More people out and about means burglary is expected to rise, which is why we’re launching a new campaign, in partnership with the Home Office, to warn Neighbourhood Watch members, and non-members alike, and provide practical tools to prevent burglary.

We’ve worked with specialist social creative agency, TMW Unlimited, to create Safety in Neighbours – a fresh, thumb-stopping social campaign aimed at a younger audience of 20-50 year olds, launching on 27th July.

This document provides some more detail on the campaign and instructions and links for you to support it on your social media channels.
The idea: Life’s safer when you know your neighbours. With more people looking out for unusual behaviour on your street, burglaries can be prevented.

The design: It features our iconic black and yellow brand colours, but with a modern animated twist to grab attention and stand out on social media.

The audience: We’re targeting non members and a younger audience of 20-50 year olds in the 12 most high-risk areas of England and Wales.

The outcome: We’ll encourage people to use the WIDE combination of security measures in the home, which reduces the risk of burglary by almost half (49%). We’ll direct them to a prevention checklist, local crime map, and our membership page.

The campaign: It’ll be promoted via paid Facebook advertising and on Neighbourhood Watch’s Instagram and Twitter channels for 3 weeks from 27th July.
